The PVSC-G/Eliminator has been designed for use with exhaust stacks specifically on Gillig model buses.

The PVSC-G/Eliminator allows for easy positioning of the nozzle directly to the mouth of the vertical stack. The PVSC/Eliminator may be rolled into position and the nozzle is set to the height of the stack mouth.

The PVSC-G/Eliminator flex hose can then be connected to the existing or new extraction hose to complete the capture and removal of the exhaust fumes.

PORTABLE FUME
ELIMINATOR
